

## CONTENTS OF VOLUME 5

- Armstrong, R. E.** See French, R. C., 453, 461.
- Baird, K. M.** See Whitfield, J. F., 17.
- Bakerspigel, A.** The structure and manner of division of the nuclei in the vegetative mycelium of *Gelasinospora tetrasperma* Dowd., 125.
- Baxter, R. M.** An interpretation of the effects of salts on the lactic dehydrogenase of *Halo-bacterium salinarum*, 47.
- Bhat, J. V.** See Bhat, M. G., 109.
- Bhat, M. G., Ramakrishnan, T., and Bhat, J. V.** Salicylate as intermediate in the breakdown of aromatic ring by *Pseudomonas convexa* var. *hippuricum*, 109.
- Blakley, E. R.** See Ciferri, O., 277, 547; Westlake, D. W. S., 621.
- Blanchard, G. C.** See Johnstone, D. B., 299.
- Bose, B.** See Katznelson, H., 79.
- Campbell, J. J. R.** See Neilson, N. E., 293.
- Carter, G. R.** See Muysson, J. R., 122.
- Cheldelin, V. H.** See Newburgh, R. W., 415.
- Ciferri, O. and Blakley, E. R.** The metabolism of 2-keto-D-gluconate by cell-free extracts of *Leuconostoc mesenteroides*, 547.
- Ciferri, O., Blakley, E. R., and Simpson, F. J.** Purification and properties of the 2-ketogluconokinase of *Leuconostoc mesenteroides*, 277.
- Colmer, A. R.** See Magee, L. A., 255.
- Cook, F. D. and Lochhead, A. G.** Growth factor relationships of soil microorganisms as affected by proximity to the plant root, 323.
- Cook, F. D. and Quadling, C.** A modified technique for isolation of bacteriophage from contaminated materials, 311.
- Corke, C. T.** See Robinson, J. B., 479.
- Cosgrove, W. B.** Utilization of carbohydrates by the mosquito flagellate *Crithidia fasciculata*, 573.
- Craig, B. M.** See Tulloch, A. P., 485.
- Dempster, G.** See Grodums, E. I., 595, 605.
- deRepentigny, J. and Sonea, S.** Measurements of intensity of primary fluorescence in microbial smears, 563.
- Diena, B. B.** See Eidus, L., 245.
- Divekar, P. V.** See Funk, A., 317.
- Eidus, L., Diena, B. B., and Greenberg, L.** Observations on the use of tetrazolium salts in the vital staining of bacteria, 245.
- Estermann, E. F.** See Skujins, J. J., 631.
- Farkas, G. L. and Ledingham, G. A.** Studies on the polyphenol-polyphenoloxidase system of wheat stem rust uredospores, 37.  
The relation of self-inhibition of germination to the oxidative metabolism of stem rust uredospores, 141.
- FitzPatrick, F. K.** Studies with kanamycin against *Mycobacterium tuberculosis*, 305.
- Ford, A. C., Jr. and Murray, T. J.** Studies on *Haemobartonella* infection in the rat, 345.
- Forney, C. E.** See Fulton, M., 269.
- Fowler, G. L.** See Sarachek, A., 583.
- Francombe, W. H.** See Murray, R. G. E., 641.
- Franklin, A. E. and Sinclair, J. C.** Tissue culture studies with infectious hepatitis specimens, 567.
- French, R. C., Armstrong, R. E., and Nagler, F. P.** Evaluation of poliomyelitis antisera by plaque neutralization tests, 461.
- French, R. C., Armstrong, R. E., and Yarosh, W.** Improvements in the tissue culture safety testing of Salk vaccines, 453.
- Fulton, M., Forney, C. E., and Leifson, E.** Identification of *Serratia* occurring in man and animals, 269.
- Funk, A. and Divekar, P. V.** Caerulomycin, a new antibiotic from *Streptomyces caerulescens* Baldacci. I. Production, isolation, assay, and biological properties, 317.
- Furesz, J.** Studies on inhibitors of influenza virus haemagglutination in normal rabbit and ferret sera, 505.
- Gabriel, O.** See Miller, J. J., 153.
- Gibbons, N. E.** See Takahashi, I., 25.
- Gottlieb, S. F. and Mandel, M.** Utilization of 1-amino-2-propanol by a soil bacterium, 363.
- Greenberg, L.** See Eidus, L., 245.
- Griffiths, B. W.** See Logan, J. E., 405.

- Grodums, E. I. and Dempster, G.** The age factor in experimental Cocksackie B-3 infection, 595.  
Myocarditis in experimental Cocksackie B-3 infection, 605.
- Hamvas, J. J.** See Labzoffsky, N. A., 395.
- Hochster, R. M.** See Madsen, N. B., 1; Nozzolillo, C. G., 471.
- Hoffmann-Ostenhof, O.** See Miller, J. J., 153.
- Hugh, R.** Oxytoca group organisms isolated from the oropharyngeal region, 251.  
Motile streptococci isolated from the oropharyngeal region, 351.
- James, N.** Plate counts of bacteria and fungi in a saline soil, 431.
- Johnstone, D. B., Pfeffer, M., and Blanchard, G. C.** Fluorescence of *Azotobacter*. I. A comparison of the fluorescent pigments with riboflavin, 299.
- Jordan, D. C.** Observations on the amino acid pool and cellular leakage in intact cells of *Rhizobium meliloti*, 131.
- Kaneda, T. and Roxburgh, J. M.** A methanol-utilizing bacterium. I. Description and nutritional requirements, 87.  
A methanol-utilizing bacterium. II. Studies on the pathway of methanol assimilation, 187.
- Katznelson, H.** See Landerkin, G. B., 169.
- Katznelson, H. and Bose, B.** Metabolic activity and phosphate-dissolving capability of bacterial isolates from wheat roots, rhizosphere, and non-rhizosphere soil, 79.
- Kuitunen, E.** See Labzoffsky, N. A., 395.
- Labzoffsky, N. A., Kuitunen, E., Morrissey, L. P., and Hamvas, J. J.** Studies on the antigenic structure of *Trichinella spiralis* larvae, 395.
- Landerkin, G. B. and Katznelson, H.** Organisms associated with septicemia in the honeybee, *Apis mellifera*, 169.
- Lark, C. and Lark, K. G.** The effects of D-amino acids on *Alcaligenes fecalis*, 369.
- Lark, K. G.** Isotopic competition between D- and L-methionine in *Alcaligenes fecalis*, 381.  
See also Lark, C., 369.
- Ledingham, G. A.** See Farkas, G. L., 37, 141; Tulloch, A. P., 485; Turel, F. L. M., 537.
- Leifson, E.** See Fulton, M., 269.
- Liivak, M.** See Mankiewicz, E., 261.
- Lochhead, A. G.** See Cook, F. D., 323.
- Logan, J. E., Griffiths, B. W., and Mason, M. A.** Specificity of the clearance phenomenon in the lungs of pertussis-immunized mice following intratracheal administration of radioiodinated pertussis vaccine, 405.
- McConnell, E. and Richards, A. G.** The production by *Bacillus thuringiensis* Berliner of a heat-stable substance toxic for insects, 161.
- McLachlan, J.** The growth of unicellular algae in artificial and enriched sea water media, 9.
- McLaren, A. D.** See Skujins, J. J., 631.
- MacQuillan, M. F.** See Neilson, N. E., 293.
- Madsen, N. B. and Hochster, R. M.** The tricarboxylic acid and glyoxylate cycles in *Xanthomonas phaseoli* (XP8), 1.
- Magee, L. A. and Colmer, A. R.** Decomposition of 2,2-dichloropropionic acid by soil bacteria, 255.
- Mandel, M.** See Gottlieb, S. F., 363.
- Mandels, M.** See Reese, E. T., 173.
- Mankiewicz, E., Stackiewicz, E., and Liivak, M.** A polysaccharide isolated from *Candida albicans* as a growth-promoting factor for *Mycobacterium tuberculosis*, 261.
- Mason, M. A.** See Logan, J. E., 405.
- Mayall, B. H.** See Murray, R. G. E., 641.
- Meyers, S. P. and Reynolds, E. S.** Growth and cellulolytic activity of lignicolous deuteromycetes from marine localities, 493.
- Miller, J. J.** A modified membrane filter culture procedure and its use for assessment of nutrient in agar, 421.
- Miller, J. J., Hoffmann-Ostenhof, O., Scheiber, E., and Gabriel, O.** The metabolism of yeast sporulation. III. Respiration of sporulating and growing cells, 153.
- Morrissey, L. P.** See Labzoffsky, N. A., 395.
- Murray, R. G. E., Francombe, W. H., and Mayall, B. H.** The effect of penicillin on the structure of staphylococcal cell walls, 641.
- Murray, T. J.** See Ford, A. C., Jr., 345.
- Muyssens, J. R. and Carter, G. R.** The antibiotic sensitivity in vitro of *Pasteurella hemolytica* and four serological types of *Pasteurella multocida*, 122.
- Myers, D. M.** A new method for gelatin liquefaction, 119.
- Nagler, F. P.** See French, R. C., 461.
- Naguib, K.** Influence of thiamin on growth and fat formation by *Penicillium lilacinum* Thom., 355.

- Neilson, N. E., MacQuillan, M. F., and Campbell, J. J. R. Growth studies on *Bacillus stearothermophilus*, 293.
- Newburgh, R. W. and Cheldelin, V. H. Oxidation of labelled substrates by dwarf bunt, *Tilletia contraversa*, 415.
- Nozzolillo, C. G. and Hochster, R. M. Lysis and preparation of stable 'protoplasts' of *Xanthomonas phaseoli* (XP8), 471.
- Peterson, E. A. Seed-borne fungi in relation to colonization of roots, 579.
- Pfeffer, M. See Johnstone, D. B., 299.
- Polley, J. R. Variables influencing the preparation of influenza vaccines with formaldehyde, 237.
- Quadling, C. See Cook, F. D., 311.
- Ramakrishnan, T. See Bhat, M. G., 109.
- Reed, D. J. and Wang, C. H. Glucose metabolism in *Penicillium digitatum*, 59.
- Reese, E. T. and Mandels, M.  $\beta$ -D-1,3 Glucanases in fungi, 173.
- Reynolds, E. S. See Meyers, S. P., 493.
- Richards, A. G. See McConnell, E., 161.
- Robinson, J. B. and Corke, C. T. Preliminary studies on the distribution of actinophages in soil, 479.

#### CORRECTIONS

- Volume 4, page 612. In Solution B, the quantity of  $\text{CuCl}_2 \cdot 2\text{H}_2\text{O}$  should read 0.269 mg.
- Volume 5, pages 493-503. The spelling of the species *Humicola alopallonea* should be changed to read *Humicola halopallonea*.
